

# AFFILIATE PROGRAM

Support Clevver and earn money.

## REFER CUSTOMERS

**THERE ARE 3 WAYS TO REFER A CUSTOMER AND RECEIVE COMMISSIONS:**

### **Opportunity 1: Registration Widget**

We provide a registration code widget that can be integrated into your website. Every customer that registers through this snippet will have your partner code attached.

### **Opportunity 2: Domain Referrals**

We list your main domain in our system as a partner domain. Every website visitor coming from that domain will have your partner code attached when registering for an account at our website.

### **Opportunity 3: Landing page at clevvermail.com**

Together we set up a landing page on our site targeted towards visitors that you send redirect. Every visitor is assigned your partner code.

**5€ for activation,  
5% on 1st year's revenue**

## REFER ENTERPRISE ACCOUNTS / RESELLERS

**REFER OUR MOST POWERFUL ACCOUNT, THE ENTERPRISE ACCOUNT**

Enterprise Account customers use our system to offer our white-label software to their own users. This account works in their own corporate design on their own domain. Enterprise customers can offer all Clevvermail services and locations, as well as their own locations.

**50€ for activation,  
20% on 1st year's revenue**

## REFER LOCATION PARTNER

**SUPPORT TO EXPAND THE CLEVVER LOCATION NETWORK**

Our locations are the heart of the Clevver network. We are constantly looking for business worthy addresses worldwide to offer to our customers. Assist us in finding good location partners and receive a commission.

**100€ for activation,  
10% on 1st year's revenue**

The revenue share for Customer and Enterprise referrals will be based on actual customer payments made to Clevver within the first 12 months. The revenue share of a referred partner location is based on the actual revenue of that location. Customer credit notes will be deducted from those revenues. A normal customer is regarded activated after the first postbox has been verified and a payment of at least 10 EUR was made into the account. An Enterprise account is regarded activated after the first postbox is verified, a valid credit card is added to the account and an initial payment of at least 200 EUR is made into the account. The Location Partner is regarded activated once the contract is signed by both parties.
